

STATUS AND RESULTS

ONEPLACE PLATFORM CONSISTS 4 MAIN MODULES:

OnePlace

The Online Energy Platform

Energy Efficient Cities
Energy Efficient Cities

ONEPLACE platform enables users to exchange experiences, identify good practice & draw conclusions and remarks which they can disseminate to urban policy/ energy planners

WebGIS tool for better assessment of energy use within the public buildings and visualization of energy audits onto **3D city models**.

3D Energy Management System
3D Energy Management System

Financial roadmap: examples of best practices and practical steps to use the national & EU-level resources.

Database covers the electronic & electric appliances. It connects customers interested in EE projects to qualified contractors / energy experts.

AUSTRIAN BOOSTEE-CE PARTNER JUDENBURG RECEIVES EUROPEAN „CLIMATE STAR“ AWARD

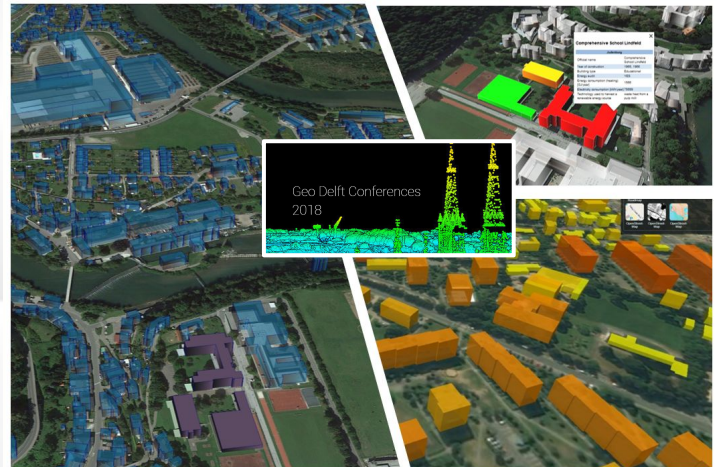

Every two years the European office of the Climate Alliance awards the **Climate Star to municipalities** and regions with outstanding achievements in climate protection. This year's ceremony took place in Lower Austria (on occasion of Austria's current EU Council Presidency) on the 18th of October. **The Austrian BOOSTEE-CE partner Judenburg** received the **Climate Star** in the **Category 2** –“up to 100,000 inhabitants” for the project **“Climate action with staying power”** for more than 30 years of action against climate change.

PROJECT NEWS

FBK together with **EUWT NOVUM** presented **3DEMS** at the **3DGeoInfo** event.

The event has been organized within the GeoDelft 2018 bunch of conferences (<https://www.tudelft.nl/geodelft2018/>). The 3DEMS is the practical and user-friendly web tool developed within BOOSTEE-CE, based on heterogeneous databases and **3D building models** (LOD1 and LOD2) to provide easy access to buildings energy information and allow policy makers to better plan strategies and retrofits.

PARTNER NEWS

The Municipality of Velenje is about to test the **crowdfunding approach for energy renovation** of a historical building used by the University for Life-long Learning - within eCentral project.

The eCentral pilot building of the University for Life-long learning (Ljudska univerza Velenje)

As part of the project, three partners are going to test innovative financing schemes as public-private partnership, ESCO model and **crowdfunding** to finance their pilot renovation projects. **The Municipality of Velenje** will run one of the most challenging processes and will try to attract private finances through the crowdfunding for renovation of the building used by the University for Life-long learning.

4th PROJECT MEETING

The fourth BOOSTEE-CE project partners meeting was held in **Zlín, Czech Republic** on 18-19 October, 2018. Partners met to review, discuss and evaluate the project's progress, test the OnePlace-3DEMS tool and to plan successive activities. Within the meeting we have discussed the activities for the incoming 3rd reporting period and mid-term review.

PROJECT NEWS

Some 25 participants got familiar with the BOOSTEE-CE project at the conference of the members of the **Green Network of Slovenia**, that took place on the **26th of October in Žalec, Slovenia**, where BOOSTEE-CE brochures, leaflets and the 2nd Newsletter were disseminated.

FOCUS GROUP MEETING IN SLOVENIA

The 2nd focus group meeting of project BOOSTEE-CE held in Velenje.

City of Velenje and **E-Institute** organised the 2nd focus group meeting of project BOOSTEE-CE held in Velenje on 10th and 29th of October 2018. The event was divided into two parts (meeting with local business, support organisation and with regional energy agency). The participants were informed about the progress of BOOSTEE-CE and **local pilot** – installation of smart meters in the **Music School Fran Korun Koželjski Velenje** by Municipality Velenje. The focus of the discussion was on first intermediate results of pilot action and on the first draft of OnePlace platform.

FOCUS GROUP MEETING IN ITALY

The **Emilia-Romagna Region** organized the **4th Focus Group Meeting (FGM)** within Ecomondo International Fair, 22nd ed. hosted in Rimini. The FGM has provided a recap of the Project, objectives and actions with a specific focus on the **OnePlace Energy Platform**, which enables users to exchange experiences, identify good practice & draw conclusions in energy efficiency. The participants have discussed with the Emilia - Romagna Region representatives, providing them with ideas and suggestions that will be brought to the attention of the partnership.

The 4th FGM of project BOOSTEE-CE held in Rimini.

PARTNER DESCRIPTION

European Grouping of Territorial Cooperation NOVUM – PP12

European Grouping of Territorial Cooperation NOVUM limited (EGTC NOVUM) was established in September 2015. The main area of activity is implementation of programmes and projects in the field of: transport and infrastructure, tourism, culture, health protection, education, risk management, environmental protection and energy. EGTC NOVUM results from a partnership between five regions in Poland and the Czech Republic. EGTC NOVUM aims to intensify, facilitate and promote Polish-Czech border cooperation to strengthen economic and social cohesion of the area.

PARTNER DESCRIPTION

E-Institute – PP2

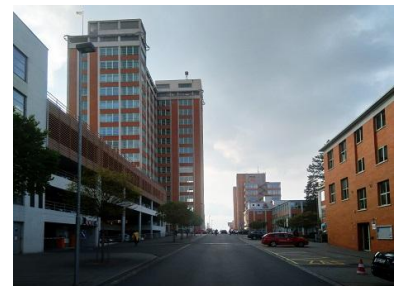

E-zavod (E-Institute) is a non-profit R & D institute working in the field of sustainable development. The mission of the institute is to support integration of European policies and improve quality of citizens' life through practical implementation of the projects. Main focus is on supporting energy efficiency, renewable energy, environmental protection, rural development, innovation support. The Institute follows global trends, selects the ones who can positively contribute to society or business and transfers them to Slovenian territory. E-zavod has been operating for more than 10 years. At the moment a team of 15 experts is implementing 21 EU funded projects (two as a lead partner).

PARTNER DESCRIPTION

Energy Agency of the Zlín Region – PP3

EAZK was established by the Zlín Region as the executive tool for enforcement of national strategic documents into regional framework until the phase of incorporation of all national priorities into Zlín Region strategic documents and its implementation in land planning and building control such as Regional Programme of Landscape Development, Energy Action Plans etc. EAZK operates also as an advisor for particular departments of the Regional Office of the Zlín Region, especially for those in charge of regional development. EAZK was primarily established as an implementing tool of the Zlín Region energy policy. The agency operates also as an independent advisor for the public sector in the Zlín Region in the process of development of energy plans and identification of suitable opportunities for investment, mainly in the field of RES, energy efficiency and low-energetic construction.

NEXT PROJECT MEETING

The next BOOSTEE-CE project meeting will take place in **Koprivnica, Croatia** on 11-13 March, 2019. Partners will meet to review, discuss and evaluate the project's progress and to plan successive activities.

BOOSTEE-CE PROJECT WAS PRESENTED BY MAZOVIA ENERGY AGENCY

MAE President Bartosz Dubiński presented the EMPOWER Interreg Europe project and project BOOSTEE-CE during the **workshops organized by the Interreg Europe Policy Learning Platform** and project REBUS, VIOLET and SET-UP on **25-29 July 2018 in Florence (Italy)**.

During the meetings, BOOSTEE-CE was promoted during the speeches, as well as in the form of leaflets distributed on the spot.

During the workshop on energy efficiency in buildings, participants had the opportunity to present their own experiences in the field of energy efficiency.

CONTACTS:

Project coordinator: Fabio Remondino, FBK Trento, Italy – remondino@fbk.eu

Project website: <http://www.interreg-central.eu/Content.Node/BOOSTEE-CE.html>

Project on Facebook: <https://www.facebook.com/BOOSTEECE/>

The project is funded by Interreg Central Europe Programme, under the Priority 2 "Cooperating on low-carbon strategies in Central Europe", specific objective "develop & implement solutions for increasing EE & renewable energy usage in public infrastructures". The total budget of BOOSTEE-CE is 2.2 mil. Eur.
